

WHITE COURSE

TWO-PHASE:

If a competitor goes clean in the 1st round (phase one), the competitor will, upon crossing the finish line, **immediately** commence the jump-off course. No circles between finishing phase one and starting phase two. ***Timer starts as they cross the finish line of the first round.***

If there are no clean 1st rounds and a tie exists OR if phase one rides must be used to fill 1st-6th places, faults and time for 1st round will be applied.
